GOLD FIND IN SASKATCHEWAN

FREE MILLING VEIN AT LAC LA RONGE EQUALS KLONDIKE.

New Assay Office Planned for Prince Albert-Improvements in Mohawk in Lake Superior Field-Butte's June

SEATTLE, July 3 .- A despatch from Prince elligencer says:

"The most remarkable gold discovery since the Klondike finds has just been made it Lac La Ronge, 200 miles north of Prince Albert, in the great hinterland of the province of Saskatchewan. H. C. Hamelin and B. L. Clemons, prominent business men of Prince Albert, having evidence of a rich year, outfitted three parties of prospectors. The finds were encouraging, but not sen-

out and the finds which have been made of an eight inch vein of free milling gold quartz have created a profound sensation. On June 21 B. L. Clemons secretly left Post Chase for the north, carrying with him one of the finest specimens of gold quartz found by one of his parties. H. C. Hamelin as a specimen from the same vein quartz and mineral lands branch of Ottawa to be the richest and best defined specimen he has seen and that a carload of such quartz

ough for any one man. ne assays so far made from former nds have shown \$5,178 and \$6,164 to the on respectively, but the latest sample is ared to carry from \$20,000 to \$30,000 to The finds have been made within

ood, copper \$65,000, and lead \$175,000, making a total of \$780,000.

For the last eleven months 2,000 tons of lead bullion have been shipped to San Francisco to be refined. This was necessary for the reason that the capacity of the Trail refiners was not sufficient.

Plans are being prepared for the extension of the refinery so that the daily production of lead will be 100 tons.

The finding of a ledge of gold bearing ore assaying from \$25.50 to \$258 a ton from random samples from surface outcroppings is reported from Pemberton Meadows, near Lilloet Lake, eighty miles from Vancouver.

The Eva mine at Cambourne, which was bonded to American capitalists, was taken over last week. The Eva has been a shipping mine for the last ten years. A sixty ton concentrator and a ten stamp mill are located on the property. About \$250,000 has been taken in gold bricks.

WASHINGTON.

SEATTLE, July 5.—The ledge on the Oriole at Metaline has widened to five feet of first class shipping ore at the bottom of a sixty foot shaft. The shaft has been sunk on

"CHARACTER THE GRANDEST THING." THE CAMERON, in use the world over, and con-beged to be the most serviceable, durable and effective Station and Sinking Pumps on the mar-ket to-day. Often finitated, never equalled. Write for the latest catalog "C" and lowest prices to the A. S. CAMERON STEAM PUMP WORKS, Foot East Ed St., New York City, U. S. A.

the hanging wall, and a cross cut to the foot wall the other day revealed the full width of the ledge. It has been carefully assayed across the vein and the average value is well above \$40.

Another shipper is to be added to the mines of the North Side by the Granite and Allie. The stamp mill is to be changed into a forty ton concentrator, the work to be completed by August 1. Fifteen men will be employed. The claims were originally located as a gold property and a ten stamp mill erected, considerable values in gold being extracted. At depth the ore turned into lead-silver. Two shafts have been sunk 900 feet apart, each 100 feet deep. From these levels drifts were run. The vein has a width of 32 feet. 24 feet of it being first class concentrating ore. The ore is found in a contact between granite and quartzite.

A rich strike was made last Friday on the property of the Chickanum Mining Company near the First Thought mine in Stevens county. The ore assays from \$1,600 to \$2,500 to the ton in gold. The mine is being operated under a working bond by Michigan and local capital.

The Silver Queen at Kettle Falls broke into a body of gray copper the other day. The strike was made in a drift extended to cut the main ledge.

MONTANA.

BUTTE. July 7.—The copper production

MONTANA.

BUTTE, July 7.—The copper production of the mining companies of Butte for June amounted to 25,548,880 pounds, working on an average of twenty-eight days during the month. The totals are as follows:

Companies.
Boston and Montana...
Anaconda.
Butte and Boston.
Washoe
Parrot..
Trenton.
North Butte.
Butte Coalition.
Original.
Pittsburg and Montana.
Miscellaneous.

A prospect in the main range and located a couple of miles southeast of Butte is producing tungsten in commercial quantities. This metal has heretofore received but little attention in any section of Montana, alducing tungsten in commercial quantities. This metal has heretofore received but little attention in any section of Montana, although it is known to exist in numerous in charge of H. B. Totten, manager of the Northern Crown Bank, and another in charge of Dr. J. A. Moran are leaving Prince Albert for the newest Eldorado of the north. The provincial Cabinet is now considering immediate repairs to the Montreal Lake trail, a distance of seventy-five miles north from Prince Albert, and as the remaining 125 miles is canoe route the means of reaching Lac La Ronge will be comparatively easy. William McInnes of the geological survey and Frank Crean of the railway lands branch have just left for the north.

"The Dominion Government has a man now on the ground with a view to establishing without delay an assay office at Prince Albert."

ALASKA.

SEATTLE, July 3.—"The Innoko country, while still in embryo, will send down at least a quarter million dollars as its contribution to Alaska's output for the winter work." and I he Chilson, a trader in there.

The J. I. C. mine of the Amalgamated This metal has heretofore received but little attention in any section of Montana, although it is known to exist in numerous localities. This property is owned and is being worked by Sampson Beers of this city. The tungsten is not many section of Montana, although it is known to exist in numerous localities. This property is owned and is being worked by Sampson Beers of this city. The tungsten is numerous localities. This property is owned and is being worked by Sampson Beers of this city. The tungsten is numerous localities. This property is owned and is being worked by Sampson Beers of this city. The tungsten is numerous localities. This property is owned and is said to be very similar to deposite at Georgetown, Col.

The Highland district, seventeen miles south of Butte, is the scene of several south of Butte, is a de

silver of the Butte mines do not come to the Montana assay office, but are shipped East.

A certified copy of the articles of incorporation of the MacArthur Bros. Company of New Jersey has been filed with the Secretary of State. The corporation is authorized to engage in general mining business and has an authorized capital stock of \$3,000,000. It purposes operations in Beaverhead county, this State.

A cartical of ore averaging \$94 to the ton has been received at the East Helena smelter from the Black Friday mine in the Radershope to ship a carload every third day. For years the property was permitted to lie idle on the assumption that it had been worked out.

A Butte syndicate headed by Andrew Quilty has secured a \$35,000 lease and bond on "Old Baldy," an early day property in the Summit district of Madison county. The property adjoins the Kearsarge.

Milling ore with a considerable streak of high grade shipping ore has been encountered in the property of the Bartlett Mining Company near Virginia City. The body is about three feet wide and gives indications of permanency.

C. D. McLure, the St. Louis millionaire, and the heirs of J. T. Conner of this city have given Parkison, Stranahan & Taylor and control the Average of the Capacity of ore treatment plants. Walve, was \$8,325 tons, worth gross \$1, 500 lies as follows:

A sergos Gross Manner.

Company operating in Erickson district, half feet wide and is filled with carbonate ore carrying kidners of galena. The vidnes of galena dividend of \$105,000 and Rolled has declared a dividend of \$105,000 and

about three feet wide and gives indications of permanency.

C. D. McLure, the St. Louis millionaire, and the heirs of J. T. Conner of this city have given Parkison, Stranahan & Taylor an option on the Apex mine in Madison county, and a large force of men is now cleaning out a tunnel from the Alder gulch side of the mountain. This will be pushed in 800 feet, tapping the vein under the old shaft.

in 800 feet, tapping the vein under the old shaft.

High grade silver ore with considerable values in gold has been encountered in the U. S. Grant mine in Madison county, under lease to the Gainan brothers.

F. L. Sizer and F. M. Smith of this city have made the initial shipment from the Fairvisw mine, in the Ophir district, Powell

county. Values are chiefly in go Eastern syndicate represented by Eastern syndicate represented by D. M. Armstead of Butte has purchased the Ophir group, in which 13 per cent. copper has been encountered. There are three leads and the country rock is described as Butte granite. SOUTH DAKOTA.

the defamite granite.

SOUTH DAKOTA.

DEADWOOD, July 8.—The Wasp No. 2, which mines and mills ore probably lower than any other company in the northern Hills, is in operation after several weeks layoff. Manager Gray has for the last few days been mining ore of a little higher grade and if the cleanups are satisfactory the experiment will be continued.

The Bear Lodge district over in Wyoming is a scene of activity for both private companies and individuals. The country around Sundance is being worked over and a large amount of ground explored, but no attempts at deep mining are made owing to the limited resources of the companies. Some of the ledges run high in gold and from time to time this country has produced rich samples which indicate a rich mother lode officers were reelected as follows:

At the annual meeting of the Lucky Strike Gold Mining Company held here the old officers were reelected as follows: President, Harry Sorge of Reedsburg, Wis. vice-president, E. M. Cassaday of Whiting. Ia.: treasurer, H. F. Seiter of Tracey, Minn.: secretary, Lee Swift of Tracey; directors, C. A. Allen of Deadwood: W. F. Beck of Akron, Iowa; Charles Pierson of Gers. The outlook for the property was declared to be bright. The mine on Box Elder Creek has been unwatered and the present pumping facilities have been found adequate to keep the water at its present level. The mill is being overhauled.

The Beck of Akron, Iowa; Charles Pierson of Gers. The outlook for the property was declared to be bright. The mine on Box Elder Creek has been unwatered and the present pumping facilities have been found adequate to keep the water at its present level. The mill is being overhauled.

The Bit search over the control of the

Acacia and Granite public companies also GOOD SALES OF MALLEABLE. Acacia and Grante public companies also paid dividends.

During the eleven months ended May 29, the Mary McKinney mine, Cripple Creek yielded on company account 534 tons of ore worth \$15,122.90. Royalties from 14,637 tons shipped by lessees reached \$70,636.31, making a total of \$86,058.21. Treatment and mining expenses, \$20,431.94, left the net profit from ore sales \$55,628.27. Treasury funds May 29 were \$90,840.12. The property is now leased to the Western Investment Company.

George S. Nichols of New York city has sold to Arthur Nichols of Denver, the M. I. X. claim, Georgetown, Col., for \$4,000. The purchaser will probably consolidate the claim with others that he owns and organize a company to develop them. There have been good purchases this

and until this step has been accomplished it is quite unlikely that the contemplated record mill test will be attempted.

UTAH.

SALT LAKE, July 7.—A rich streak of ore has been struck in the tunnel of the Decker Mining Company in Decker Canon, Wastich county. The tunnel is in 640 feet and the assay shows 22 per cent. lead, and the assay shows 22 per cent. lead, and associates by T. M. Sanders of Sounces silver and \$1.40 gold to the ton. Andrew Madsen of Prevo, who is opening the Boulder mine atiParis, Idaho, has uncovered a large ore body, samples from which run as high as 62 per cent. lead. Another claim near the Boulder carries copper from which picked samples have been taken that carry 55 per cent. copper.

The first shipment of the season has come from the Lion Hill Consolidated at Ophir. It consisted of two cars which averaged 405 ounces silver, 23 ounces gold and 13 per cent. lead. A third car of ore is being hauled from the mine to the railroad station. Two leases are also operating successfully en the property.

The Chief Consolidated in Tintic has shipped its first car of ore to the market. Walter Fitch, the manager, savs that by the raise from the lighty feet above the level and 700 feet east of the shaft. The company is driving a shaft down 1,800 feet.

What is said to be a true fissure vein has been encountered in the Death Cafon Commany, operating in Erickson district, Togele county. The ven is four and a half feet wide and is filled with carbonate ore, carrying kidners of galena. The average value is 340 to \$70 a ton in silver and lead.

NEYADA.

Self-Hambert of a depth of a feet heigh subject to the ton was recently struck in the Paverage value is 340 to \$70 a ton in silver and lead.

NEYADA.

GOLDFIELD, July 7.—Florence Goldfield. and the assay shows 22 per cent lead. So ounces silver and \$1.00 glote the ton.

Andrew Madsen of Provo, who is opening the Boulder mine atlipris. Idaho, has uncovered his four claims are the Boulder carries copper from which picked samples have been taken that carry \$5 per cent. copper.

The first shipment of the season has come it consisted of two cars which at sphin it consisted of two cars which at sphin has lead. A third car of ore is being hauled from the mine to the railroad station. The Chief Consolidated in Tintic has shipped its first car of ore to the market. Waiter Fitch, the manager, save that by the raise from, the 1.00 foot level three feet of galena ore has been broken into the level of the leve

No Extra Charge for It. Advertisements for THE SUN and THE EVENING SUN may be left at any Ameri-can District Messenger office in the-city. Chicago Versus Pittsburg Prices-Wide Differences on the Half Year's Business. PITTSBURG, July 10 .- The International Harvester Company has bought a large tonnage, chiefly malleable. A small proportion went to Southern furnaces, the bulk of the iron being bought from Chicago and Milwaukee furnace interests. Deliveries extend into next year and the trade takes it that the price averaged to a basis

would not sell beyond this year. Pig iron is quotable on the basis of \$16.35 to \$16.35 to \$16.85 (Chasm, Lake George, Saratoga.
